### Latest events

#### ArchitectECA2030 Kick-Off, 14 July 2020

The ArchitectECA2030 project started with an online kick-off-meeting on 14 July 2020. The main goal of this meeting was to set the official start of the project.

The project coordinator Reiner John (IFAG) presented ArchitectECA2030 overview: vision, inspiring ideas, goals and expected impact.

Simultaneously the essential project implementation and management aspects were discussed.

The project partners presented their companies overviews and the main tasks involved in the project. SC-Leaders and WP-Leaders presented the objectives, partners involved and the main work to do.

#### European Forum for Electronic Components and Systems (EF ECS) 2020, 25-26 November 2020

EF ECS is an international forum with a focus on 'Our Digital Future' along the Electronic Components and Systems value chain in Europe. This year the organizers of EF ECS have joined forces to bring all stakeholders together online in the virtual event on 25-26 November 2020. EF ECS 2020 gave participants a unique opportunity to engage with the leaders and enablers of Europe's Digital Economy by hosting a virtual exhibition to spaces, concentrated on learning about calls and funding landscape developments, latest technology trends and applications of Electronic Components and Systems, development of new project ideas and workshops.

ArchitectECA2030 project was represented in a virtual booth. The exhibition visitors could find out the main project goals, objectives, current stage and expected results.

The project partner Virtual Vehicle Research represented the video – Validation Building Bricks at Virtual Vehicle. Moreover, there was an opportunity to communicate and to discuss with project partners representatives from Infineon Technologies AG, Virtual Vehicle Research GMBH, and Teraglobus.

### Publication

The first ArchitectECA2030 related publication "Automated Transition Coverage in Behavioural Conformance Testing" (Lina Marsso, Radu Mateescu, Wendelin Serwe) by project partner INRIA was published by Springer on 2 December 2020. The paper was accepted in The 32nd IFIP International Conference on Testing Software and Systems on 9-11 December 2020.
